2020 Photo Rally Notes

It is recommended that you print this sheet and take it with you on your ride. It helps to remove any doubt as to what you are meant to be photographing. Your Motorcycle should always be included in the photo. Every year, we receive photos taken at the correct location but of the wrong “thing”. Bringing a copy of this sheet with you, removes all doubt about the photograph subject.

Please make our job easier by ONLY uploading a SINGLE photo of your visit. Uploading multiple shots of the same location makes it difficult for the back room staff as they have to look through multiple duplicate photos in the album to perform a count

Whilst we have taken as much care as possible with the location data, whilst we check and double check, mistakes do sometimes occur in the transition from documents to maps to websites etc. Any mistakes in the data will come to light early in the rally. Always keep an eye on the Website and Facebook for any location corrections

Remember, there is no competitive element at all to this event. If you want to ride to all the locations as soon as possible or in one big ride, fine. If you want to take the entire allotted timeframe in multiple days out, thats ok too. During your ride, you will possibly encounter many roads you have not ridden on before and are therefore unfamiliar with. That’s all part of the fun. But remember, Ride safe, Ride sensibly and enjoy yourself!
